

Specifications:

- Rated input voltage - 240V AC, 50Hz
- Rated output voltage - 240V AC 20VA
- Rated output voltage - 115V AC 20VA

Important Notice:

The transformer of this shaver outlet is fitted with a thermal cutout. Should the transformer become too hot during operation a thermal cutout will activate and power to the socket outlets will be unavailable.

In this event, the transformer will require time to cool down, after which the power will again be available.
